Contributions to Mineralogy and Petrology

Founded in 1947 by O.H. Erdmannsdörffer. Volume 1 (1949) edited by O.H. Erdmannsdörffer as "Heidelberger Beiträge zur Mineralogie und Petrographie". Continued from Volume 6 (1957) as "Beiträge zur Mineralogie und Petrographie", edited by C.W. Correns. From Volume 12 (1966) to Volume 40 (1973) published as "Contributions to Mineralogy and Petrology/Beiträge zur Mineralogie und Petrologie", edited by C.W. Correns and F.J. Turner. Beginning with Volume 41 (1973) "Contributions to Mineralogy and Petrology". As of Volume 43 (1974) edited by C.W. Correns and I.S.E. Carmichael. As of Volume 74 (1980) edited by I.S.E. Carmichael and J. Hoefs. As of Volume 105 (1990) edited by T.L. Grove and J. Hoefs.

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA: Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. This fee is US $0.20 per page, or a minimum of US $1.00 if an article contains fewer than five pages. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0010-7999, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

Contents of volume 105

No. 1: pp 1–122 published June 22, 1990
No. 2: pp 123–242 published July 6, 1990
No. 3: pp 243–368 published August 21, 1990
No. 4: pp 369–490 published September 10, 1990
No. 5: pp 491–616 published October 1, 1990
No. 6: pp 617–730 published November 2, 1990

Agee CB, Walker D: Aluminium partitioning between olivine and ultrabasic silicate liquid to 6 GPa 243–254
AlDahan AA: Alteration and mass transfer in cataclasites and mylonites in 6.6 km of granitic crust at the Siljan impact structure, central Sweden 662–676
Altherr R → Henjes-Kunst F 460–472

Baldwin SL, Harrison TM, Fitz Gerald JD: Diffusion of ^{40}Ar in metamorphic hornblende 691–703
Barnes S-J, Often M: Ti-rich komatiites from northern Norway 42–54
Barnes SJ → Gole MJ 704–714
Barnett RL → Sutcliffe RH 255–274
Barreiro B → Smith HA 602–615
Baumann A → Henjes-Kunst F 460–472
Bennett EA → Carr MJ 369–380
Bingen B, Demaiffe D, Hertogen J: Evolution of feldspars at the amphibolite-granulite-facies transition in augen gneisses (SW Norway): geochemistry and Sr isotopes 275–288
Blattner P, Lassey KR: Transport of stable isotopes, kinetics, dispersive advection, and the 'isotopic fronts' of Baumgartner and Rumble (1988) 486–490
Blattner P → Graham IJ 650–661
Bloomer SH → Lin PN 381–392
Breemen O van → Corriveau L 473–485

Caporuscio FA, Smyth JR: Trace element crystal chemistry of mantle eclogites 550–561
Carr MJ, Feigenson MD, Bennett EA: Incompatible element and isotopic evidence for tectonic control of source mixing and melt extraction along the Central American arc 369–380
Chamberlain CP, Ferry JM, Rumble III D: The effect of net-transfer reactions on the isotopic composition of minerals 322–336
Charnock JM → Kohn SC 359–368
Chen C-Y, Frey FA, Garcia MO: Evolution of alkalic lavas at Haleakala Volcano, east Maui, Hawaii. Major, trace element and isotopic constraints 197–218
Clausen C, Holm PM: Origin of the acidic volcanics of the Tolfa district, Tuscan Province, central Italy: an elemental and Sr-isotopic study 403–411
Corriveau L, Heaman LM, Marcantonio F, Breemen O van: 1.1 GA K-rich alkaline plutonism in the SW Grenville province. U-Pb constraints for the timing of subduction-related magmatism 473–485
